OPTIONAL FOUNDATION KIT AND FLOOR COVERING (only available if shipped with shed)							
<b>Important Note:</b> When requesting a floor covering kit, it is important to understand that this product can only be used in conjunction with a foundation kit. The floor covering also requires a layer of 30mm thick polystyrene insulation (not supplied) which is inserted inside the foundation kit, and below the covering plates. This provides a cushioned and insulated floor area.							
FOR MODEL	ASSEMBLED FRONT x SIDES	PRODUCT CODE			SINGLE PACK (KG)	FOUNDATION KIT	R.R.P. INCL. V.A.T.
1	149 x 77cm	41010			5	Provides a square and level base to shed – even on slightly uneven ground. Comes complete with plastic, snap-in corner joints, long ground anchors and brackets. This strong box section frame can be flooded out with concrete on a damp-proof membrane after installation of the shed for a smooth, permanent floor inside the shed.	£125.00
