Duramate 8x6	186 / 160	239 x 160	155 x 158
Duramate 8x8	186 / 160	239 x 239	155 x 158
Duramate 8x10	186 / 160	239 x 319	155 x 158
Woodbridge 10x8	216 / 186	319 x 239	155 x 183
Woodbridge 10x10	216 / 186	319 x 319	155 x 183
Woodbridge 10x12	216 / 186	319 x 398	155 x 183
Vinyl Garage 10x16	217 / 186	321.5 x 480	224 x 180
Vinyl Garage 10x18	217 / 186	321.5 x 559	224 x 180
Vinyl Garage 10x21	217 / 186	321.5 x 638	224 x 180
Vinyl Garage 10x23	217 / 186	321.5 x 717	224 x 180

NOTE: All dimensions within this table are quoted in centimetres.

All shed sizes quoted are 'nominal' sizes—please refer to the above chart for accurate dimensions as supplied by the manufacturer. If measurements should be of essence to a contract, our acceptance prior to contract must be obtained in writing.

DuraMax Vinyl Storage Sheds are clad with the highest quality PVC on a strong steel frame and supports.

These sheds provide safe and secure storage space to consumers. They are manufactured from a fire retardant durable PVC. They are weather resistant, and will never rust, rot, or require seasonal applications of sealants or paint / preservatives.

Assembly is simple, clean and safe, and can be completed in a few short hours. All parts are pre-cut, drilled and numbered for ease of assembly and packaging includes all necessary hardware as well as a step-by-step illustrated instruction manual. All you need to provide is a levelled surface, of either wood or concrete to match the size of the desired shed.

This ease of assembly makes **DuraMax Vinyl Sheds** the perfect solution for all your storage / hobby needs.

BUILDINGS

LIMITED

THE 'DURAMATE' RANGE

Apex shed range in a nominal 8' frontage with depths of 5'3", 7'10" & 10'6" (nominally called 8x6, 8x8 & 8x10) These sheds require anchoring to a hard standing of concrete or slabs. This anchoring must be carried out BEFORE the shed is erected. Alternatively a purpose made foundation kit assembly is available as an optional extra.

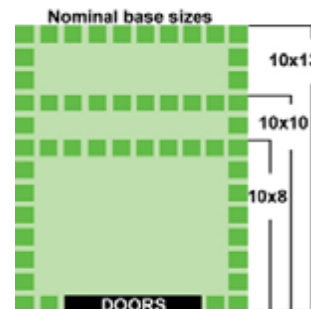

Apex height: 185cm (73")

Eaves height: 160cm (63")

Door opening size all models: 155cm (61") wide x 157.5cm (62") high

THE 'WOODBIDGE' RANGE

Apex shed range in an 10'5" frontage with depths of 7'10", 10'6" & 13' (nominally called 10X8, 10X10 & 10X13) These sheds require anchoring to a hard standing of concrete or slabs. This anchoring must be carried out BEFORE the shed is erected. Alternatively a purpose made foundation kit assembly is available as an optional extra.

Apex height: 216cm (85")

Eaves height: 185cm (73")

Door opening size all models:

155cm (61") wide x 181cm (71.25") high

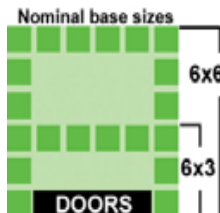

'LITTLE & LARGE HUTS'

'The Little Hut' – 5'8" at front x 3'2" at sides.

Also available :

'The Large Hut' - 5'8" at front x 5'10" at sides i.e. the same frontage, but twice the depth of 'The Little Hut'. Both models feature a strong moulded integral floor in which the walls sit. The floor must then be anchored to a solid foundation, slabs or concreted area.

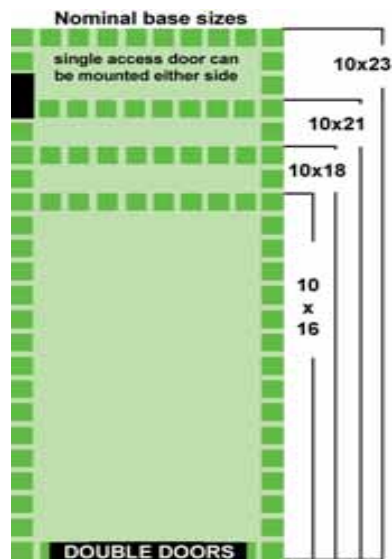

Apex height: 203cm (80") Eaves height: 185cm (73)
 Door opening size (both): 133cm (52.5") wide x 178cm (70") high

THE 'VINYL GARAGE'

'The Vinyl Garage' – Approx. 10' at front with a choice of four depths – 16', 18', 21' & 23'.

Supplied **complete with a foundation kit** which requires filling with concrete. Also supplied with ramp sections for ease of entry. Single side access door included. Modular extensions as shown below:

Substantial heavy duty roof bracing included at regular positions along the length of the garage giving extra roof strength.

Apex height: 217cm (85.5")
 Eaves height: 185.5cm (73")
 Door opening sizes :
 FRONT DOORS: 223.5cm (88") wide x 180cm (71") high
 SIDE DOOR: 76cm (30") wide x 180cm (71") high

OPTIONAL EXTRAS

Window Kit – available for all sheds except Little / Large huts

NOTE: This window cannot be fitted retrospectively and must be inserted at the time of installation.

Foundation Kits – available for each shed except for Little / Large Huts & Garage. Strong Steel framework for making a firm foundation. Included as standard for the Garage buildings. These heavy duty, hot dipped galvanised steel frame kits are the perfect base for our **DuraMax** sheds. Easy to assemble before you construct the shed. No need for a conventional concrete or slab base – just perfectly level ground. After the shed is fully erected and secured to the foundation kit, flood out the interior with concrete for a smooth floor or cover with moisture resistant timber or chipboard. A strong plastic sheet should be placed below the whole area covered by the foundation kit to prevent rising damp.

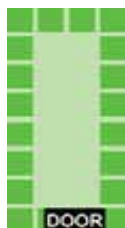

THE 'SIDEMATE'

Side pent shed in a 4' frontage with a depth of 7'10" (nominally called 4x8) These sheds require anchoring to a hard standing of concrete or slabs. This anchoring must be carried out BEFORE the shed is erected. Alternatively a purpose made foundation kit assembly is available as an optional extra.

PLEASE NOTE: The doors and roof can only be built as shown. i.e. always opening to the right.

Apex height: 183cm (72")
 Eaves height: 161cm (63.5")
 Door opening size :
 76cm (30") wide x 157.5cm (62") high
