PRODUCT NOTES:

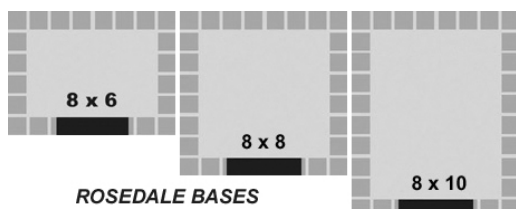

1. All products on this page feature double, inside running sliding doors and a strong entry/exit ramp across the door opening width. The sliding doors are positioned at the front of the shed, i.e. the 6', 8' or 10' **roof measurements** being the first figure in the RANGE column, the second figure being the length of the shed from front to rear. All models feature standard height gables and have ventilators to both front and rear.
2. All products throughout this list are made totally from **hot dipped galvanised steel**.
3. Metal sheds are supplied without a floor, and therefore require the provision of a substantial concrete or slab base so that the shed can be anchored securely against storm conditions. For the Olympian Garage, we strongly recommend a minimum of 15cm depth of concrete.
4. WE RESERVE THE RIGHT TO MAKE PRICE AND SPECIFICATION CHANGES WITHOUT PRIOR NOTICE. ALL MEASUREMENTS THROUGHOUT THIS LIST ARE THOSE OF THE MANUFACTURER. IF MEASUREMENTS SHOULD BE OF ESSENCE TO A CONTRACT OUR ACCEPTANCE PRIOR TO PLACING THE CONTRACT MUST BE OBTAINED.
